

4ArTS – 'for students by students'

It is time to pick up your colours, musical instruments, costumes, props and pack your bags to join us for the **8th 4ArTS International Encounter for Arts Therapies Students in Istanbul, Turkey on 29 August- 1 September 2013.**

This year's theme "**arts alive!**" will be leading us to a path for change, inspiration, adaptation and integration of diversities in the city of two continents: **Istanbul.**

We will focus on finding our resources in times of dynamic change and will keep the arts alive throughout the process.

Arts Therapists flow, move, draw, express, relate and play!

This is a great opportunity to experience all the art forms with a well-balanced combination of both theory and practice from both academics and students.

There will be lectures by academics to deepen the understanding of Arts Therapies, demonstrating multiple approaches to the field.

Student participants can lead workshops in a safe, nonjudgmental and unique environment.

This would provide them with an experience of inviting other students to engage in a creative process with them. This way, student workshop facilitators would have the opportunity to reflect on their own practice and gain more experience in the multicultural holding space.

Who could participate

- Students in one of the four disciplines (Art Therapy, Drama Therapy, Music Therapy, Dance Movement Therapy) or
- Recently qualified or qualified within 2 years (summer of 2011) in any of the four disciplines
